

Have you been diagnosed with cluster headaches?

THE ENFORCE STUDY IS ENROLLING NOW.

Local doctors are looking for people who have cluster headaches to participate in a clinical research study of an investigational medication.

If you take part in the study, you may receive:

- Investigational medication for cluster headaches at no cost
- Compensation for travel
- Study-related care from a local doctor

You may be eligible to participate if you:

- Are 18 to 70 years of age
- Have been getting cluster headaches for at least 12 months

The study doctor will also check other requirements to determine your full eligibility.

The ENFORCE study is enrolling now. Contact clinicaltrials.gov to learn more or contact us at:
